- **Tools** - VS Code, Visual Studio, Sourcetree, Postman, Notepad++.
- **Stack** - **MERN Full Stack Developer**

WORK EXPERIENCE

☐ Powerweave Software Solution Pvt. Ltd

Since Dec 2018

Project	Unimart (React Web Application)
Client	UNILEVER
Description	Unimart is an online shopping portal where suppliers supply the raw material in bulk, and marketing users buy the products, procurement approves the order. Users can see the dashboard.
Technology	Node.js, Express.js, React.js, MVC, C#, SQL Server, Bitbucket
Tool Used	VS Code, Visual Studio 2015, Microsoft SQL server 2014, Sourcetree

Responsibility	In this project my contribution is to develop the marketing, supplier and procurement user dashboard. Creating react components and connecting with node service api. Created stored procedures for CRUD operation.
-----------------------	---

Project	Automated Imagery (React Web App)
Client	Internal Project
Description	This is an ad banner creation project which creates the banners just over voice command or simply using chat bot. It takes dynamic products, background color and banner type (i.e Ad / Web) and creates the banner on the fly. Users can download these banners as images and can use them anywhere.
Technology	React.js, Express.js, Node.js, Dialogflow
Tool Used	VS Code, Bitbucket
Responsibility	In this I have to create and train the dialogflow's intent as per banner data and call this intent from front end through node.js and integrate on UI. Also worked in making it dynamic, accepting values and appending the result on the fly. Used html2canvas to download the html banner in image.

□ **DataComp Web Technologies(I) Pvt. Ltd**

Nov 2016 – Dec 2018

Project	Good Friend (Android App & MVC Web Application)
Client	TATA AIA LIFE
Description	This is a Xamarin Hybrid Android App. The project has been developed to day-to-day activities for insurance advisors. In the app advisors can book their appointments with seniors and they can maintain their commission as per their activities and points achievements.
Technology	C#, MVC & WCF, JQuery, JavaScript, Xamarin hybrid android
Tool Used	Visual Studio 2015, Microsoft SQL server 2014, SQLite, TFS

Responsibility	In this project my contribution is to understand user requirements, designing and developing the application.. Created wcf service for synchronizing data from app to server and vice versa. Used N-tier architecture for presentation layer, business and data access layers and were coded using C#.
-----------------------	--

Project	Star App (Android App)
Client	TATA AIA LIFE
Description	This is a Xamarin Hybrid Android App. It is a gamification project for Pre-NLA and NLA. Users can download mp4 and html type courses for every month, Complete the courses to get the points on it, see the notifications, for earning more points can play the game, view the leaderboard for ranking.
Technology	C#, MVC & Web API, JQuery, JavaScript, Xamarin hybrid android
Tool Used	Visual Studio 2015, Microsoft SQL server 2014, SQLite, TFS
Responsibility	In this project my contribution is to develop a leader board module for showing user's rank. Created a web api for synchronizing data from app to server and vice versa. Used N-tier architecture for presentation layer, business and data access layers and were coded using C#.
